

February 11, 2021

Dear Family Member,

I am happy to report to you that all of our COVID positive residents are now recovered and doing well. We will continue to monitor all residents for signs and symptoms as well as test all residents weekly for a duration of 14 days from our last positive case. This week's testing resulted in one employee testing positive. Our employees will continue to be COVID tested twice a week as per NY State Department of Health guidelines.

Next Thursday, Walgreen's will be back to conduct their final vaccination clinic and administer the second doses to 65 residents and employees. We have applied with the Department of Health to be able to administer our own COVID vaccine in the future. We hope to be able to administer the vaccine to any new residents and employees in the future.

As always, I encourage you to schedule an iPad visit or a window visit with your loved one. I am hopeful that in person visits could be allowed in the near future. I thank you for your prayers and continued support.

Sincerely,

*Fortunato Scerbo III*
