

**Oneida Health**  
*exceptional care... always*

March 16, 2021

Dear Family Member,

I am sorry to have to update you that as a result of today's COVID testing another employee was identified as COVID positive. The employee was sent home and will remain out of work for a minimum of 14 days. This employee works in a department that does not have direct contact with residents and does not show any signs or symptoms of COVID.

Although I remain optimistic with our fight against COVID, it is difficult to continue to relay news that will prolong us from opening in-person visitation for a minimum of 14 more days. Please continue to utilize our window visits and iPad visits to connect with your loved one. I'd like to remind you to visit [www.oneidahealth.org](http://www.oneidahealth.org) to find the ECF communications and updates as well as information to schedule window and iPad visits.

Thank you for your understanding.

Sincerely,

Fortunato Scerbo III

Administrator
