

May 24, 2020

Dear Fellow Employee,

The good news today is that are streak of 0 positives continues. People are still presenting with a reason to be tested, that is, they are not feeling well or feel they have been exposed. There are some that are required, such as the ECF staff and there are some eligible because they are going back to work with the phase 1 reopening, so they are allowed to be tested.

We have tested a total of 1987 individuals, 1747 negative, 139 positives with now, 101 pending results. We had received 44 results back today and all are negative. Surgery 2, Inpatient 3, ED 4, Practices 6 and ECF 29. We continue to have 1 positive inpatient with 8 inpatients pending. The Upstate Mobile Van tested 125 individuals over the 2 days they tested in Madison County and all were negative. You may have heard the Governor speak about the ongoing reduction of deaths in this state, which is great. Still too many, but the numbers are down.

I hope those of you at work today are having a good day. Please realize how important you are to our ability to care for our community members. Thank you for being there for your patients and residents!

With Sincerest Gratitude,

Gene F. Morreale
President and CEO
