## 7 Safety Protocols

### During COVID-19

We are taking extra precautions to provide the safest environment possible.

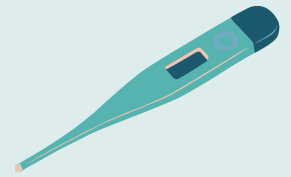

#### 1 Staggering appointments.

Staggering appointment to minimize the number of people in the waiting room at one time.

#### 2 Checking your temperature.

Screening staff and patients for fever, flu-like symptoms and other risk factors.

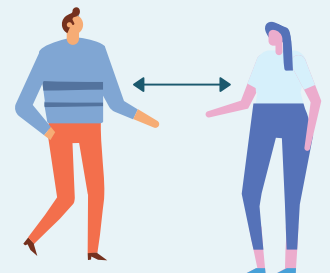

#### 3 Cleaning and disinfecting

Cleaning and disinfecting waiting rooms and high touch surfaces.

#### 4 Practicing social distancing.

Stay at least 6 feet from other people in the common areas.

#### 5 Wearing PPE

Ensuring staff and patients have appropriate personal protective equipment (PPE).

#### 6 Washing hands.

Frequent hand washing for the CDC-recommended 20 seconds.

#### 7 Sanitizing treatment rooms.

Sanitizing treatment rooms between patients.
